

# Bernadette

[Vic Chesnutt](#)

I was shivering, I'll admit it  
I had nothing better to do  
Except to wheeze my lazy wheeze  
Bernadette, where are you?  
Bernadette, where are you? She gets much acclamation  
For such a self proclaimed Faustian  
Bernadette doesn't like doubters  
She wants to fight in the Coliseum What can you tell me of Therese and Isabelle?  
Was it just fate that brought them together?  
Or did they will their unusual union? In cahoots of love or all of the above?  
In cahoots of love or all of the above?
