

# Emotionally Cool (Single Edit)

## Paper Heart

You know how to twirl your hair with ease  
Anymore subtle would be considered a tease  
You know how to make good eye contact  
Too bad your flaws aren't as easy as that. Intimacy isn't what you go through  
Every time the ceiling is staring back at you  
The danger comes when you ignore the truth  
And that's all I've been trying to tell you. Anybody else would be considered a fool  
But when you do it you're emotionally cool  
Anybody else would be considered a fool  
But when you do it you're emotionally cool. You know how to flirt with whomever you please  
And get them worked up then you wanna leave  
You know how to take everything you said back  
Too bad I don't have the same spirit you lack. Intimacy isn't what you go through  
Every time the ceiling is staring back at you  
The danger comes when you ignore the truth  
And that's all I've been trying to tell you. Anybody else would be considered a fool  
But when you do it you're emotionally cool  
Anybody else would be considered a fool  
But when you do it you're emotionally cool. You don't play hard to get  
And that gives me such a fit  
You're suppose to be a challenge  
But that's not there  
I guess you've never met someone that really cares.
