## **Mission: Impossible**

## The International TV Orchestra

Alone I stand, here I stand waiting
Dreams of me erasing
All the false words that you spokeAlone I stand, here I stand waiting
Dreams of me erasing
All the false fucking wordsRegret filled nights finally end
Sleepless nights they finally end
I'm not forgiving you
I will never ever forgive youReality is setting in
It's your mistakes that brought you here
The things you said, they brought me to my knees
The truth, it hurts so fucking muchBut it hurts so much more in the end
Where I am left
It hurts so much more in the end

It hurts so much more in the end Where I am leftSo let's keep this bond As a reminder

A reminder of all the things
We fucking hadFeeling no sympathy, feeling no remorse
Feeling no sympathy, feeling no fucking remorse
Feeling no sympathy, feeling no remorse
Feeling no sympathy, feeling no remorse
