

Forever (Jp Vivitus Remix)

[Kaysa](#)

Any words to say you'll love me
Till the end of time
Don't mean much
Don't do much
Don't mean much at all No words can reassure me
What I mean to you
Just a touch
Simple touch
Just a touch would do You got me losing my mind
You got me wasting my time
You got me holding the line
I know I can't take it for granted
Forever
No-one really knows what it means
Almost obscene
Forever
Everytime we're lost for words
Seems an absurdity
Forever and ever... Love or leave me, spare me all
About the way to go
No effect
Cheap effect
No effect at all Temptation- should I stay
Or should I take the fall
No respect
I object
No respect at all
You got me losing control
You got me playing my role
You make me hide in my hole
I know I can't take it for granted Forever
No-one really knows what it means
Almost obscene
Forever
Everytime we're lost for words
Seems an absurdity
Forever Anytime, anyplace, anywhere I go
Nothing seems perpetual
The only cycle's rise and fall

Anytime, anyplace, anywhere I go

Forever and ever...
