

Things to Remember

Willie Nelson

I've cried so much lately
That I've made out of list
The things to remember
Things to forget But my mind can't separate
Joy from regret
I always remember the things
To forget Things to remember
With the day that we met
The day that we parted
Things to forget Well, why won't my heart
Let me do it this way?
With just things to remember
Today Things to remember
Plans that were set
Plans didn't work out
Things to forget Well, why won't my heart
Let me do it this way?
With just things to remember
Today
