

# Bigger Than Me

[Le'Andria Johnson](#)

I used to bite my tongue  
Afraid of messing things up  
I tried to dim my light  
Trying to make others feel right  
But now I'm not afraid of standing up alone  
I'm only worried about  
What's best for my soul  
That's why I'm singing Don't let anybody hold you back!  
You were made for something special now that's a fact  
So when they talk about you  
Don't you even overreact  
Tell 'em it's bigger than me  
Bigger than me!  
Don't let anybody get in your head  
You are perfect top to bottom beginning to end  
So when they talk about it  
Don't matter you got a friend  
Somebody bigger than me  
Bigger than me! So hold your ground  
Forget the rest of the crowd  
Don't you know?  
Tomorrow may not ever come  
So you better get free now  
That's why I ain't afraid of being just who I am  
Cause every part of me was perfectly planned Don't let anybody hold you back!  
You were made for something special now that's a fact  
So when they talk about you  
Don't you even overreact  
Tell 'em it's bigger than me  
Bigger than me!  
Don't let anybody get in your head  
You are perfect top to bottom beginning to end  
So when they talk about it  
Don't matter you got a friend  
Somebody bigger than me  
Bigger than me! Yeah, this feels so good y'all  
And this is not for everybody  
A lot of people won't even understand this moment right here  
But for those who do

Just know that whatever comes against you  
Honey don't mind it at all  
Baby, I need you to scream  
It's bigger than me! Oh oh oh  
Came to let you know  
My God is bigger than me  
Yeeah Oh oh oh  
Came to let you know  
My God is bigger than me Oh, don't let anybody hold you back!  
You were made for something special now that's a fact  
So when they talk about you  
Don't you even overreact  
Tell 'em: bigger than me  
Tell them: bigger than me Don't let anybody get in your head  
You are perfect top to bottom beginning to end  
So when they talk about it  
Don't matter you got a friend  
Bigger than me  
Bigger than me! Oh oh oh  
Came to let you know  
My God is bigger than me Oh oh oh  
Came to let you know  
My God is bigger than me Oh oh oh  
Came to let you know  
My God is bigger than me Bigger than me Oh oh oh  
Came to let you know  
My God is bigger than me Oh oh oh  
Came to let you know  
My God is bigger than me Bigger than me
