

Break It Down (Album Version)

No Motiv

Seven years have gone by
and wee still here
I kinda wondering why
There a wall in front of us
that trying to hold us back
It time to do it now
wee got to break it down
and put our lives on track
Always ready to back you
always ready to back you all the way
I not afraid to give it all away
to give it all away to you
No friend of mine
can tell me what wrong
or tell me how long
Ie got to wait to be with you
Always trying to tell you
what you can and cannot do
And they don believe you
when you tell them how you feel
They say
feel the same as you do too? feel the pain that you do to? Well get back in your own life
and take the front door out of mine
Always ready to back you
always ready to back you all the way
I not afraid to give it all away
to give it all away to you
And I think it time for me to move on
for me to get going
Ie got a right to be with you
