

Ill Be Fine

Monica da Silva

You know
You gotta know what I've been thinking
It's through
There's nothing to believe
Yeah I was so stupid for a while there
But now
It's over I will leave

You'll never go down in history
As someone who was there for me
So don't flatter yourself
All of the time
I really should just learn from pain
You'll just do it all again
But don't worry about me
I'll be fine
I'll be fine

Oh what now
Have you taken out the champagne
So what now
Have you ruled me just insane
I guess that
You think you're on to better things
I guess that you only stand to gain

You'll never go down in history
As someone who was there for me
So don't flatter yourself
All of the time
I really should just learn from pain
You'll just do it all again
But don't worry about me
I'll be fine
I'll be fine
I'll be fine
I'll be fine
I'll be fine

You're only strong as your weakest side

And from what I've seen
That isn't too strong
We're just all faults
That you cannot hide
Hide from me
For too long

You'll never go down in history
As someone who was there for me
Don't flatter yourself
All of the time
I really should just learn from pain
You'll just do it all again
Don't worry about me
I'll be fine

Well you'll never go down in history
As someone who was there for me
So don't flatter yourself
All of the time
I really should just learn from pain
You'll just do it all again
Don't worry about me
I'll be fine
I'll be fine
I'll be fine
I'll be fine
I'll be fine
Yeah Yeah
