

Tear the Roots

[Kaleida](#)

Tear the roots,
What would you need?
You're calling to with your jealousies.
Ain't no heart. Why would you make me feel this way?
How with the bleeding stuff when deceit has been laid. How we gonna live? Cold ground got a hold on me.
I'm on my knees, begging for time.
How we gonna live? Cold ground got a hold on me.
I'm on my knees, begging for life. Tear the root. What's the use?
Why carefully grow what we won't abuse.
Axe my mind. Why would you make this crunch your grave?
Rolling in the silent need, correct inside who's to blame. How we gonna live? Cold ground got a hold on me.
I fall on my knees, begging for time.
How we gonna live? Cold ground got a hold on me.
I fall on my knees, begging for light.
How we gonna live? Cold ground got a hold on me.
I fall on my knees, begging for time.
How we gonna live? Cold ground got a hold on me.
I'm on my knees, begging for light.
(How we gonna live? Cold ground got a hold on me.
I'm on my knees, begging for time)
