

Damned If This Ain't Love

David Cassidy

Here come the cold - anticipatin', waitin', my winter sniffles and runny nose
My plans were blown, when I bumped into an old friend
She smiled, said I see you're still alone
Oh I can tell very well you've been around
I said around's a place for lookers, lookin' for what I believe I just found And I'm damned if this ain't love
Damned if this ain't love
Damned if this ain't love
Damned if this ain't love
I'm damned if this ain't love
Damned if this ain't love
Damned if this ain't love
I'm damned if I'm not in love So I took my chance
I never do but this night I thought why? what the hell?
I should have known that home is where your heart is
And my heart has found itself a home
Now I've never been much for bein' tied down
I guess I feel just fine to say I'm damned if this ain't love
Damned if this ain't love
Damned if this ain't love
Damned if this ain't love
You know I'm damned if this ain't love
I'm damned if this ain't love
Damned if this ain't love
Damned if I'm not in love
I'm damned if this ain't love
I'm damned if this ain't love
Damned if this ain't love
I'm damned if this ain't love
Damned if this ain't love
You know I'm damned if this ain't love...
Damned if this ain't love
C'mon...damned if this ain't, damned if this ain't, damned if this ain't, damned if this ain't love
