With You

Lmfao

It's crazy, I never want this feeling to end.
This is what it means to be friends
Only when I'm hanging with you
All my dreams come true because,
It's crazy, I never want this feeling to end
This is what it means to be friends
Only when I'm hanging with you
(Check it check it check it out)
All my dreams come true because...
Yo, it was all a dreams, I used to play chess at the Coffee Bean.
And as my coffee steamed I thought about my life and my lofty dreams.
It's so sick son I'm startin' to mix thanks to AM rest in peace, Banana Split
Was the place we all went Sundays, to make people feel this way we would one day
And I remember when you gave me the secret, popped in the DVD and beeped it, ha
And if you dream it you achieve it, after that it was a wrap
And now I walk in the club like a million times,
Spit on the mic like a million rhymes,
We party rock to a billion drops and this shot makes one zillion shots
Yes! I'm feelin' good, and we the best I'm feelin' good
And your breasts start feelin' good, haha LMFAO
I'ma pro with this party thang
I love cherry cheek cola and bacardi, mang
Hey, I've been the same before the start of fame
The only thing that has changed is we changed the game
You and I and the crew that I roll with,
It's gonna be the the same crew I roll old with
Memories fade like old leather
But the music that we make gonna last forever
Legacy!
[Chorus]It's crazy, I never want this feeling to end
This is what it means to be friends
Only when I'm hanging with you
All my dreams come true because
It's crazy, I never want this feeling to end
This is what it means to be friends

Only when I'm hanging with you
(Only with you, 'Foo!)
All my dreams come true because...

(Check it)
I feel like flyin', on top of my game and I ain't even tryin'
Nowadays I'm stylin' and when she naked I feel like cryin'
It's better than I hoped it'd be
I walk down the street and people notice me
Nobody was as broke as me
They say you never get nowhere smokin' weed
So I roll one up I stepped on a landmine blowin' up
And I ain't never growin' up
And if the party rocks than you know it's us
Me and 'Foo in the club straight posted up
Back when I wasn't old enough
Now bottles all night and we roll one up
Cheers and toasts to us
Oh, we winnin' now
My whole life's changed since then and now
My fans show love and women shout
Make me feel like I'm the man
All of my friends n' my fans they don't let em change you
Been from London to Japan and I'm still the same dude
And he's still the same 'Foo
Struggles we came through
Stuck with our team and our dream and look how it came true
[Chorus]Its crazy, I never want this feeling to end
This is what it means to be friends
Only when I'm hanging with you
All my dreams come true because,
Its crazy, I never want this feeling to end
This is what it means to be friends
Only when I'm hanging with you
All my dreams come true because,
Oh oh woah woah, with you [x12]
