

# Not Another Song About Love

## Hollywood Ending

Let it out  
Been building up you better  
Let it out  
say everything you've been meaning now  
I want it to burn  
When you tell me I'm such a wreck  
it isn't easy cleaning up your mess  
It's like a garter up around my neck she says it won't hurt But everything you do makes my heart race  
I can't even think straight  
is this just a game to you?  
Reruns every night  
it's always the same fight &  
I think you should know  
I hate your touch  
I hate your mouth  
I can't stand every single word that falls out  
But you're all that I've been dreaming of  
this is not another song about love  
I hate your voice  
I hate your lips  
I hate how bad I wanna steal your kiss  
But you're all that I've been dreaming of  
this is not another song about love Since you hate it just to say the least  
And with your eyes you're suffocating me  
Inside my lungs it's getting hard to breathe  
you couldn't care less  
But everything you do makes my heart race  
I can't even think straight  
is this just a game to you?  
Reruns every night  
it's always the same fight &  
I think you should know I hate your touch  
I hate your mouth  
I can't stand every single word that falls out  
But you're all that I've been dreaming of  
this is not another song about love  
I hate your voice  
I hate your lips  
I hate how bad I wanna steal your kiss

But you're all that I've been dreaming of  
this is not another song about love  
The sky fades from blue to gray.  
inside it's just like an ocean  
still I'm drowning how bad  
I wanna sink & let it take me away  
I don't know why I come back  
I do every time  
we get close to the end  
it's a finish line  
Sing these words for the girl I've been dreaming of  
is this just another song about love?  
Let it out  
been building up I better let it out  
say everything I've been meaning now  
dreaming bout  
I need it now  
I need it now  
I need your touch  
I have no doubt  
I want your love till it all runs out  
Cause you're all I've been dreaming of  
is this just another song about love?  
I need your voice  
I need your lips  
I need you bad  
I wanna steal your kiss  
Cause you're all that I've been dreaming of  
this is just another song about love
