

Knife

The Briefs

Running through kitchen
Now she's running through the door
Running through the bathroom
Now She's running on the floor
Chasing after me yea i don't wanna know
something in her hand yea i think i gotta go 'cause she got a knife to my head today
she got a knife to my brain alright do what i say
dont do what i do
I was on the run no time to think it through
got me on the run you think its really fun
fucking with my head you better go to bed 'cause she got a knife to my brain alright
she got a knife to my head alright Put down the knife I thought i told ya
Put down the knife You poke your eye out
Put down the knife you better do it She, Needs, To, Go ,To, Bed She got a knife to my head alright
She got a knife to my brain alright
She got a knife to my head alright
She got a knife to my head alright KNIFE!
