

# Love Would Be Enough

[Dean Brody](#)

## Verse 1

I might not make a lot of money  
You drive a beater for a car  
But I'm your guy and you're my honey  
And we've got some dollars in a jar  
Ah Your daddy he knows I'm really good for you  
But he says love is not enough for two to make it through  
Chorus  
But we could live up in the forest  
Eating oatmeal porridge  
While the sun comes up  
If I had you and you had me, we'd be happy as could be  
We wouldn't need a lot of stuff  
Cause we would be in love  
And for me that'd be enough

## Verse 2

If we had a shotgun wedding  
No we really wouldn't care  
We'd Park our camper in the meadow  
wildflowers all up in your hair  
Our love don't care if the stocks all crashed  
We'd just build ourselves a cabin with a creek out back  
Chorus  
I love pickin you up when were both done work  
You look so pretty an I'm covered in dirt  
If the sky came down and the grid went black  
Just take my hand and never look back no we'd never look back  
Chorus
