Hold On To Me

Armin Van Buuren

I see the faces, people and places
Burn up tonight, and fade to grey
Walking on water, dancing on wire,
Hang on my edge and don?t look down
I?m on the outside, wide open spaces
Searching foretime, to hold on to
Into the daylight, your revelation
Cuts like a knife, then breaks on through
Hold on to this
To dream is a gift
To love is divine and I won?t bring you down
Hold on to me

To dream is to be
To live is to shine and I won?t bring you down
Hold on to this
To dream is a gift
To love is divine and I won?t bring you down
Hold on to me
To dream is to be
To live is to shine and I won?t bring you down
And breaks on through
Hold on to this
To dream is a gift
To love is divine and I won?t bring you down
