Under the Spell

Kaya Project

There's a stormy vision, stars before my eyes
I seem to have this fear of the dark
That only love defies and I'm walkin' as if in a trance
And I'm talkin' like a man possessed
Makes me wonder if I'll ever get straight
When you snap your fingers and change my fate, baby
Love gets its way and honey I must obey
I'm under the spell
So tough to clear out my head
Comin' down from a night of passion
I blacked out the moment I felt, this could only be love
I'm under the spell
A physical reaction, the doctors all agree
Disillusion's all in my head, it's so real to me
And I'm walkin' as if in a trance
And I'm talkin' like a man possessed
Makes me wonder if I'll ever get straight
When you snap my fingers and change my fate, baby
You'll get your way 'cause honey, I must obey
I'm under the spell
So tough to clear out my head
Comin' down from a night of passion
I blacked out the moment I felt, this could only be love
I'm under the spell
Starstruck, I stare into space
I see the flash, then I hear the thunder
So shocked, I'm merely a shell, it's stranger than love
I'm under the spell
Fools fall in love under the moonlight
Count me as one, under the spell
