

# Space Farm

## Fu Manchu

Deep space comes a silver shine

Get your go get mine

Our ride was half as bad

Not quite what they hadWe'll take what we can get

Even if it's

We'll take what we can get

Even if it's

We'll take what we can get

Even if it'sI've seen it fly around

I seen it hit the ground

Center sun into the sea

No one rides for freeWe'll take what we can get

Even if it's

We'll take what we can get

Even if it's

We'll take what we can get

Even if it's
