Song

John Lithgow

I believe in singing my favorite songs out loud and I believe that friends should be friends forever. would you hate me if I thought of you as more than just a friend?
It gets so hard to tell and I'm tired of singing to myself.
I wish I could sing this song to you... (wish I could sing period) and if I could you know I would. I'd be right outside your door and if I could you know I would until I couldn't anymore.
I've got this song in my head and it's about you.
I hope when you hear it you'll think about me too.
All I've got is this song.
