International Pop Overthrow

Material Issue

I was ridin' around with the radio up and the windows down
I took a minute or two to think about my problems
Drivin' in this van, playin' in this band
You know it's bringin' me down
But I'll pop back up when the pretty blue lights come onIt's an International Pop Overthrow
International Pop Overthrow
It's an International Pop Overthrow
International Pop OverthrowAnd all these other boys they're just makin' noise
They don't know rock and roll, they just need someone
To have their picture taken with and I've been thinkin' 'bout you
Tell me what do I do, come on where do I go?
I don't need a girlfriend I need an accompliceIt's an International Pop Overthrow
International Pop Overthrow
It's an International Pop Overthrow
International Pop OverthrowInternational pop, international pop
International pop, international popIt's an International Pop Overthrow
International Pop Overthrow
It's an International Pop Overthrow
International Pop OverthrowOverthrow, overthrow, overthrow
