

# You Are the Universe

## Full Flava feat Ce Ce Peniston

You're the future  
And you've come for what is yours  
The hidden treasure  
Locked behind the hidden doors And the promise  
Of a day that's shiny new  
Only a dreamer  
Could afford this point of view But you're a driver  
Not a passenger in life  
And if you're ready  
You won't have to try 'cause You are the universe  
And there ain't nothin' you can't do  
If you conceive it, you can achieve it  
That's why, I believe in you, yes I do You're a winner  
So do what you came here for  
The secret weapon  
Isn't secret anymore You're a driver  
Never passenger in life  
And when you're ready  
You won't have to try 'cause You are the universe  
And there ain't nothin' you can't do  
If you conceive it, you can achieve it  
That's why, I believe in you, yes I do You are the universe  
And there ain't nothin' you can't be  
If you conceive it, you can achieve it  
That's why, I believe in you, and I believe in me Yes I do  
Believe in you, I do  
Yeah, I do You're a driver  
Not a passenger in life  
And when you're ready  
You won't have to try 'cause You are the universe  
And there ain't nothin' you can't do  
If you conceive it, you can achieve it  
That's why, I believe in you, yes I do You are the universe  
And there ain't nothin' you can't be  
If you conceive it, you can achieve it  
That's why, I believe in you, and I believe in me You are the universe  
And there ain't nothin' you can't do  
If you conceive it, you can achieve it  
That's why, I believe in you You are the universe

And there ain't nothin' you can't be  
If you conceive it, you can achieve it  
That's why, I believe in you, I believe in me You are the universe  
And there ain't nothin' you can't do  
If you conceive it, you can achieve it  
That's why, I believe in you You are the universe  
And there ain't nothin' you can't be  
If you conceive it, you can achieve it  
That's why, I believe in you
