End It All

The Muffs

Everyone's wrong
And you can't get along
Will you take it easy
Or will you go end it all now?Someday you'll find
That you're out of your mind
Will you take it easy
Or will you go end it all now?Do you want to take the time now?
Do you want to ease your mind?
Will you take it easy
Or will you go end it all now?If you want it easy
You might as well end it all now
If you want to hurt another
If you want to hurt them nowYou'll be gone forever
If you go end it forever
Will you go end it forever?
Will you go end it all now?End it all now
End it all now
