Dismembered Carcass

Broken Hope

Amputated appendages, limbless now,
Nothing but a useless torso,
and a sack of shit - filled organs...Dismembered CarcassInfectious gangrene has spread,
Any longer you'll be dead,
Arms and legs contain the disease,
Severed at shoulders and knees,
Heart unhealthy pumps immobile,
With these bloody stumps...Disfigured rotting corpse...Cadaver limbless now...Dismembered carcass,
Amputated strife,
Dismembered carcass,
Severed from a knife...
