

Shelter

Janet Paschal

On the coldest night when the strong winds rage
Outside the door the faith you've claimed
don't be scared, don't be afraid
'Cause He's there.

When fear comes knockin' on your window-pane
Pull down those curtains and call His name
Loud, strong, and clear.

Chorus:

'Cause He's your shelter through the hurricane
He's your peace when the world's insane
That's a promise that won't ever change
He'll cover you through whatever
Cause He's your shelter

So kick your feet up and rest a while
He promised He won't forsake you, child
When turbulent days are to take their toll
He'll be there
He'll be your glimpse of hope

Chorus:

'Cause He's your shelter through the hurricane
He's your peace when the world's insane
That's a promise that won't ever change
He'll cover you through whatever
Cause He's your shelter

He'll be your fortress in a time of need
He whispers child just run to me

Chorus:

'Cause He's your shelter through the hurricane
He's your peace when the world's insane
That's a promise that won't ever change
He'll cover you through whatever
He'll cover you

'Cause He's your shelter through the hurricane

He's your peace when the world's insane
That's a promise that won't ever change
He'll cover you through whatever

'Cause He's your shelter through the hurricane
He's your peace when the world's insane
That's a promise that won't ever change
He'll cover you

'Cause He's your shelter through the hurricane
He's your peace when the world's insane
That's a promise that won't ever change
He'll cover you through whatever
He's your shelter
