

All of the People

Panama Wedding

[Verse]

I said babe
aren't we a little bit old now,
for this crazy game

Is it safe now,
the wind is gone
but i think we could use a little memory,
to add to the database

I saved a little bit of money,
I put it in a vault,
hidden behind the face of a red room wall,
I took everything i wanted, I took everything I need
all in a day, and maybe they just want me to leave

[Chorus]

All of the people,
all of the people stand,
stand in a way, waiting for the concrete to break

All of the people,
all of the people take,
take it away, you know maybe they just made me believe

[Verse]

And the days,
the days feel a little bit longer now,
in the mornings bright

We escape now,
and leave this place,
heaven has another open door for us, and the days get a name

I saved a little bit of money,
I put it in a vault,
hidden behind the face of a red room wall,

I took everything i wanted, I took everything I need
all in a day, and maybe they just want me to leave

[Chorus]

All of the people,
all of the people stand,
stand in a way, waiting for the concrete to break

All of the people,
all of the people take,
take it away, you know maybe they just made me believe

[Verse]

Woke up late, still half asleep,
with the airportline out in the street,
and baby I know you want it to stay,
but the weekend rush won't let us wait

Woke up late, still half asleep,
with the airportline out in the street,
and baby I know you want it to stay,
but the weekend rush won't let us wait

[Chorus]

All of the people,
all of the people stand,
stand in a way, waiting for the concrete to break

All of the people,
all of the people take,
take it away, you know maybe they just made me believe
