

# Stranger Stranger

## Agent Side Grinder

Theres a crazy moon, a crazy sky  
Looking down on me  
Ive been losing track of timeIts been the hardest day  
The longest night Ive ever spent alone  
I cant get you off my mindYou know what Ive been missing  
Do I really have to say?  
We talk but you dont listen  
Its not always been that wayNo, shes a stranger, stranger  
Youre not the girl I knew, will you ever be the same?  
You act like a stranger, stranger, tell me it aint true  
Wont you please explain, why youre so strange?In the morning gloom, this empty room  
I can see your face  
When I look again, youre goneYour memory so close to me  
It leaves a trace  
Wont you tell me what went wrong?No sign, no words, no warning  
We can never be the same, no  
When you walked out that morning  
You know, you left nothing but the blameI know that youre a stranger, stranger  
Youre not the girl I knew, will you ever be the same?  
You act like a stranger, stranger, tell me it aint true  
Wont you please explain, why youre so strange?Oh, youre a stranger, stranger  
Youre not the girl I knew, will you ever be the same?  
You act like a stranger, stranger, tell me it aint true  
Wont you please explain, why youre so strange?Stranger, stranger  
Youre not the girl I knew, will you ever be the same?  
You act like a stranger, stranger, tell me it aint true  
Wont you please explain, why youre so strange?
