

# Full Moon (kutcorners remix)

## Brandy

Boy

I saw you soon as you came bouncing through the door

You and your mans and them just took over floor

Started doing your thing and it made me notice you even more

The way you turned around ant looked at me it seemed as though

You must have somehow felt me staring on the low

Something tells me your the kinda guy i'd like to get to knowI ain't even gonna front

I ain't even gonna lie

Since you walked up in the club

I've been giving you the eye

We can dance if you want

Get it cracking if you like

Must be a full moon

Feels like one of those nightsWhy is this the first time that i'm seeing you around?

Could you be visiting or are you new in town?

Whatever the case, I'm feeling you right here and right now

Your smile and all the love you show me let's me know that you

Like what you see and want to get to know me too

This could very well be the start of something special

Happy that I met youI ain't even gonna front

I ain't even gonna lie

Since you walked up in the club

I've been giving you the eye

We can dance if you want

Get it cracking if you like

Must be a full moon

Feels like one of those nights
