

I Prayer

Darin Michaux

In an innocent childish dream
Windows open to let the future in
And I miss it, miss it now In a gentle and hopeful mind
Shadows crawl, time was colourblind
I found there's a way to survive I prayer when the dreams fall apart
Coldness ruins my heart and I pray, and I pray, and I pray
I prayer when my knees touch the floor
Every feeling's so hard, I pray Help you stray me of all the love
And destroy all the wishes that I have
Nothing will suck my pride I pray when the dreams fall apart
Coldness ruins my heart and I pray, and I prayer, and I prayer
I prayer when my knees touch the floor
Every feeling's so hard, I pray I was so random and fear steals my hope
All I have is thoughts cut the sky I prayer when my knees touch the floor
Every feeling's so hard, I prayer
