Charmed Life

Vixen

Get an angel on the left hand
And a devil on the right
She's gonna raise a little hell
Up in heaven tonightShe likes the lightning run
But she never gets burned
She's got to be the center of attention
And she's never gonna runShe's drivin' daddy's brand new car
She's usin' mama's master charm
She acts so nonchalant
But the girl gets everything she wantsLivin' a charmed life
Everything's workin' out right
Livin' a charmed life
You know everything's workin' out right
You know she's livin', lovin', lovin', livin', yeah yeahWatch her come around at midnight
Flying high up in the moon
She don't care about tomorrow
'Cause she was born with a silver spoonEverything she's got
Gets the boys at heart
And she's got to be the center of attention
Oh, the girl can't stopShe's drivin' daddy's brand new car
She's usin' mama's master charm
She acts so nonchalant
But the girl gets everything she wantsLivin' a charmed life
Everything's workin' out right
Livin' a charmed life
Everything's workin' out right
You know she's livin', lovin', lovin', livin', yeah yeahShe lives a charmed life
Yes, she doesShe's got her daddy's brand new car
She's got her mama's master charm
She acts so nonchalant
But the girl gets everything she wantsLivin' a charmed life
Everything's workin' out right
Livin' a charmed life
Everything's workin' out right
You know she's livin', lovin', lovin', livin', yeah yeahShe lives a charmed life
She lives a charmed life
