I'm There

Justincase

It took so long for us to find out
Where we went wrong
But now there's no doubt
We were untrue to the way that we feltI know that your love
Is just like mine
You save it and wait for
That rainy dayLook at the sky, one time
And you'll see it's pouring, it's time
You let me in, in case you ever need
Someone like me, I'm thereI lost my pride when walking with you
I saw a side that I never knew
I didn't care 'cause I was with youI know that your love
Is just like mine
You save it and wait for
That rainy dayLook at the sky, one time
And you'll see it's pouring, it's time
You let me in, in case you ever need
Someone like me, I'm thereI know that your love
Is just like mine
You save it and wait for
That rainy dayLook at the sky, one time
And you'll see it's pouring, it's time
You let me in, in case you ever need
Someone like me, I'm thereLook at the sky, one time
And you'll see it's pouring, it's time
You let me in, in case you ever need
Someone like meIn case you ever need
Someone like me
I'm there, I'm there
