Puzzle

[Preview] Quintino & Blasterjaxx

Here we are again with another bunch of soft songs
Maybe you are wondering why it took us so long
With a schedule tight, studio time in sight
We have mostly been out touring
Inspiration has been hard this time and honestly
I've had some problems with all these rhymes
We're under stress again but it has always been that way
And once we get it right then I know it's there to stay
Third album less of Ska and not so many fast ones
More of poppy, pushy songs, those that we do best now
Nine to five at Unisound in January '97
We had the greatest time with Dan as engineer
Now the outcome is what you hear
We're under stress again but it has always been that way
And once we get it right then I know it's there to stay
We're under stress again but we're used to all that now

It's always tough at first but somehow we always end up fine
If you're lonely or if you're happy
Feeling swell or feeling blue, we might have a tune for you
And it's about half of an hour, maybe less or maybe more
Whatever it might be it's still soft core
We're under stress again but it has always been that way
And once we get it right then I know it's there to stay
We're under stress again but we're used to all that now
It's always tough at first but somehow we always end up fine
We always end up fine
We're under stress again
We're under stress again, yeah, yeah
We're under stress again
We're under stress again
We're under stress again
