

Something

Butthole Surfers

Something she said to me last night,
Something she said to me.
I saw the sunrise over my daddy's grave
And I ate some rice and cheese today.
Something she said to me last night,
Something she said to me,
She been talking behind my back again,
This time she`s gonna bleed.
Something she said to me last night,
Something she said to me,
I saw the sunrise over my daddy's grave,
And I ate some rice and cheese today.
Something she said to me last night,
Something she said to me,
She been talking behind my back again,
This time she`s gonna bleed.
Something she said to me last night,
Something she said to me,
When I kick her in the knee she goes out the door,
I just know she`ll be back for more
