## Ish

You see more of your T.V  
Then you ever did of me  
Your best friends channel 9  
We took your list, the ones alive  
There the last but your just fine  
but thats not the way life goesI just look into your eyes  
'cause i wanna see  
I wanna go Baby just come with meLets go lets go lets go, to the beach  
lets go lets go just you and me  
Lets go lets go...well be free  
well be free ya well be freeTanning oil and palm trees  
Lots of friends and beach parties  
Your not strong then even a BitchRun away to miles of sand  
You and me and maybe my band  
Youll have fun im sure of itI just look into your eyes  
'cause i wanna see  
I wanna go Baby just come with meLets go lets go lets go, to the beach  
lets go lets go just you and me  
Lets go lets go...well be free  
well be free ya well be freeI dont understand how  
Life can pass you by  
And baby ill make you fly...Ill make you fly ill make you fly fly fly ill make you flyLets go lets go lets go, to  
the beach  
lets go lets go just you and me  
Lets go lets go...well be free  
well be freeLets go lets go lets go, to the beach  
lets go lets go just you and me  
Lets go lets go...well be free  
well be free ya well be free o well be free ya well be...
