Voice from the mountain

Nick Drake

Voice from the mountain
And a voice from the sea
Voice in my neighborhood
And a voice calling meTell me my friend, my friend
Tell me with love
Where can it end, it end
Voice from aboveThe sound on the ocean wave
And the sound in the tree
Sound in a country lane
Say you can be freeTell me, you crowd, you crowd
Tell me again
Tell me out, loud out, loud
This sound is rainTune from the hillside
And tune full of light
A flute in the morning
And a chime in the nightI know the game again
I know the score
I know my name my name
But this tune is moreVoice from the mountain
And voice from the sea
Voice from in my neighborhood
And a voice calling meTell me my friend, my friend
Tell me with love
Where can it end, it end
Voice from above
