Only Always

Kathy Troccoli

The tree is lit, the fire burns
The snow is falling but you're keeping my heart warm
The music plays, the candles glow
And as you look at me I've got to let you knowIt's Christmas time my darling
And all I can say
Is I'll love you
For only alwaysAnother year I've had with you
We've grown together beyond all that we've been through
This season holds a place in me
Where there is always room to make new memoriesIt's Christmas time my darling
And all I can say
Is I'll love you
For only alwaysSo kiss me now and hold me tight
Beneath the mistletoe
My dance with you is wonderful
I love you more than you'll ever knowIt's Christmas time my darling
And all I can say
Is I'll love you
For only always
