

Choke

The Cardigans

A common line
I closed my eyes
But couldn't let it go
The perfect time

I dropped my guard
And lost but won somehow
It's rather sad
It feels like we've never

Made it together since
One word ahead
And you'd be dead
I held you in my throat

I stumble by
Attached to you
I couldn't let it go
It's rather sad

It's really sad
It feels like we've never
Made it together since
We'll never have the guts to discover

We'll choke on it and die
