Freedom

Bernhoft

when i'm alone, and i contemplate
the changes in our gravity
I feel the lift, yeah I leviate
I challange rationality
this is my favorite game, no single rule applies
having my cake and eating some more on the side
Hit cruise control and ease back
Open the Pearly gates
Come on out and dine with meNow this is freedom, freedom freedom from all things
That hold you down and stick you up
All that grinds and never stop
This is freedom, freedom be free from everything
And the people who told you that
Couldn't do every this or that
Won't matter anymore
You feel alone, you feel different
But different is alright with me
This ain't black and white, no it never was
Those colors never meant a thingNow this is freedom, freedom freedom from all things
That hold you down and stick you up
All that grinds and never stop
This is freedom, freedom be free from everything
And the people who told you that
Couldn't do every this or that
Won't matter anymorethey hold you down and stick you upAll that grinds and never stop
This is freedom, freedom be free from everythingBreak down the door, eat up the floor
This is freedom, freedom be free from everything
And the people who told you that
Couldn't do every this or that
Won't matter anymore
They hold you down and they stick you up
All that grinds and never stop
This is freedom, freedom be free from everything
