

# Suicide

## Kai Tracid

Have you ever thought about committing suicide?  
Leaving the world behind?The sorrow, the pain and the fear  
of the unknown futureDelivering from any human needs and pressure  
in just one secondYour cry for help is lost in this lonely world  
in which you are completely aloneNobody helps you when you're feeling down  
and the loneliness is breaking your heartIt would be so simple to go down  
the stairs of the final wayBut the fear of the unknown world beyond,  
of having nothing, of being nothingKeeps you on your designated way  
and takes away your longing for self-destructionThat is why  
you will never commit suicide
