

# Find Love

[Sean Garrett](#)

Don't let hurricanes hold you back  
Raging rivers or shark attacks Find love, and give it all away  
Find love, and give it all away Wrestle bears bring them to their knees  
Steal the honey from killer bees Find love, and give it all away  
Find love, and give it all away Don't be scared to connect the dots  
And dig for gold in the parking lot Find love, and then give it all away  
Find love, then give it all away Find love, then give it all away
