

Angels Walk Below

Harts

Standing by my side
Going on today
If the Sun lights up the sky
Then I'll be OK. Have all the roses fallen?
I can feel the wind blow
We're looking up the mountains
Where angels walk below.
Stop to take a look and chose to fly
Look inside your heart.
If I can see the light then I'll be OK
I say
Have all the roses fallen?
I can feel the wind blow
We're looking up the mountains
Where angels walk below. Have all the roses fallen?
I can feel the wind blow
We're looking up the mountains
Angels walk below. All the roses fallen
I can feel the wind blow
Looking up the mountains
Angels walk below.
If I can find the words
Tell me all there is to know
Beauty as it falls
Angels walk below.
Have all the roses fallen?
I can feel the wind blow
Looking up the mountains
Angels walk below.
If I can find the words
Tell me all there is to know
Beauty as it falls
Angels walk below.
All the roses fallen
I can feel the wind blow
We're looking up the mountains
Angels walk the ground below. (the, the ground below, the, the ground below)
If I can find the words (the, the ground below, the, the ground below)
Tell me all there is to know (the, the ground below, the, the ground below)

Beauty as it falls
Angels walk below. (the, the ground below, the, the ground below)
Oh.
