Fire

The Essence

You make light from dark, illuminate my heart
It started with a spark and now I'm consumed
I know that it's Your will, so I'm gonna shine until
I'm a city on a hill and they can see You
And know You
And know You inside
You set me, You lit me, I'm on fire
What a beautiful sight to see, I'm on fire
Until my light is burning bright
I'm gonna lift Your name and let this flame get higher, fire
Let Your fire feed on all my disbelief
'Cause You are all I need, You're contagious
Like a blaze I can't contain, it never fades away
It's sunshine through the rain, that's what Your love is
And I know
And I know inside
You set me, You lit me, I'm on fire
What a beautiful sight to see, I'm on fire
Until my light is burning bright
I'm gonna lift Your name and let this flame get higher, fire
I wanna show 'em You're the only one
Show 'em You're the only one
You're the only reason why I'm on fire
You set me, You lit me, I'm on fire
What a beautiful sight to see, I'm on fire
Until my light is burning bright
I'm gonna lift Your name and let this flame get higher, fire
You set me, You lit me, I'm on fire
What a beautiful sight to see, I'm on fire
Until my light is burning bright
I'm gonna lift Your name and let this flame get higher, fire
