

Broken Hearted Warriors

Braiden Wood

If you've been hurt, if you've been scarred
Look for something, not who you are
If you've been left or been let down
If you've been lost and never found
Been a victim or cheated on
Haven't found love in far too long
Felt abandoned and all alone
Treated as less than flesh and bone
Then let's unite and sing an anthem
A testament to love gone wrong
For the broken hearted warriors
We'll sing out our battle song
We get knocked down but we get back up
We can't give up, can't give up on love
We get knocked down but we get back up
We can't give up, no we can't give up
Can't give up on love
If you fought hard to make it work
But all the lies still seem to hurt
See, rumours spread like wildfire
Burning words come from the liar
Then let's unite and sing an anthem
A testament to love gone wrong
For the broken hearted warriors
We'll sing out our battle song
We get knocked down but we get back up
We can't give up, can't give up on love
We get knocked down but we get back up
We can't give up, no we can't give up
Can't give up on love
Woah-oh-oh
Woah-oh-oh
Woah-oh-oh
I won't give this up
You can't keep me down
I'm not one of them
I'm not a test you drive
I won't give this up
You can't keep me down
I'm not one of them
We get knocked down but we get back up
We can't give up, can't give up on love
We get knocked down but we get back up
We can't give up, no we can't give up
Can't give up on love
We get knocked down but we get back up
We can't give up, can't give up on love
We get knocked down but we get back up

We can't give up, no we can't give up
Can't give up on love We get knocked down but we get back up
We can't give up, can't give up on love
We get knocked down but we get back up
We can't give up, no we can't give up
Can't give up on love
