

# Send It On Down

Lee Ann Womack

Dad used to own the hardware store  
But now it and him ain't around no more  
Don't know the whole story but I've overheard some  
I know he's who I got my drinking from

Jesus can you save me  
From going crazy  
I need some help getting out of this town  
Are there any answers  
Up in the hereafter  
Oh if you got something won't you send it on down  
While I'm still able to be found

Guys around here want a girl who's rich  
Even if I was I wouldn't be no catch  
But this ain't where I'll be settling down  
I wanna be gone when the fall rolls around

Sitting in the bleachers at the football field  
Got a pretty good buzz from a quart I just killed  
It's a cold Sunday morning and the church bells ring  
I can just about hear all the good folks sing

Oh if you got something won't you send it on down  
While I'm still able to be found
