

Show Me

Stereomud

When will I be home
Is what you want to know
But all I can say is
I don't know when
Can't see to find my way
It's killing me slowlyHow will I be home
Is what you want to know
But all you can say is
You don't know when
Can't see to find my way
It's killing me slowlyPlease don't forget me
I am out here trying to find youShow me some kind of light
I can barely see it
Don't wanna think that it's hopeless
So show me some kind of light
I can barely see it
Don't wanna think I'm lostEvery time I left
It was so far away
No, I never thought
That it would be like this
Wish I could thank you
For the patience that you gave meIt's all I
I can do
So don't give up on me
Hope you know
It's your faith
That's guiding mePlease don't forget me
I am out here trying to find youShow me some kind of light
I can barely see it
Don't wanna think that it's hopeless
So show me some kind of light
I can barely see it
Don't wanna think I'm lostPlease don't forget meShow me some kind of light
I can barely see it
Don't wanna think that it's hopeless
So show me some kind of light
I can barely see it
Don't wanna think I'm lostI'm lostIf I'm out here without your light
I will never find my way home
