

# Misread

## Fm4

If you wanna be my friend  
You want us to get along  
Please do not expect me to  
Wrap it up and keep it there  
The observation I am doing could  
Easily be understood  
As cynical demeanor  
But one of us misread  
And what do you know?  
It happened again  
A friend is not a means  
You utilize to get somewhere  
Somehow I didn't notice  
Friendship is an end  
What do you know?  
It happened again  
How come no one told me  
All throughout history  
The loneliest people  
Were the ones who always spoke the truth  
The ones who made a difference  
By withstanding the indifference  
I guess it's up to me now  
Should I take that risk or just smile?  
What do you know?  
It happened again  
What do you know?
