

The Mountain

Three Days Grace

[Intro]

Every day I'm just surviving
Keep climbing the mountain
Even when I feel like dying
Keep climbing the mountain[Verse 1]
Another night I'm barely holding on
One step away from being dead and gone

In my life to die another day
Is this life that I've been living?
All that's meant for me?[Chorus]

Every day I'm just surviving
Keep climbing the mountain
Even when I feel like dying
Keep climbing the mountain
Every time I think I'm over it
I wake up in the bottom of it all again

I'm still surviving

Keep climbing, keep climbing

The mountain[Verse 2]

The higher I go the harder I fall
So I don't look down, I don't look back at all
And when I wish it all would turn to black
I try to see the light and push the darkness back[Chorus]

Every day I'm just surviving
Keep climbing the mountain
Even when I feel like dying
Keep climbing the mountain
Every time I think I'm over it
I wake up in the bottom of it all again

I'm still surviving

I keep climbing, I keep climbing

The mountain[Bridge]

So If I'm numb, already too far gone
And If I feel a pulsing, I keep carry on
When I'm lost and want to fade away
I tell myself to live to die another day[Chorus]

Every day I'm just surviving
Keep climbing the mountain
Even when I feel like dying

Keep climbing the mountain Every time I think I'm over it
I wake up in the bottom of it all again
I'm still alive
Keep climbing, keep climbing
The mountain [Outro]
The mountain
