

One Less Cross to Bear

Joe Bonamassa

You changed the subject
You got yourself a new deal
You waited for a fossil darlin' and I'm finding out
that's real
I don't care
I got one less cross to bear Got a brand new car
Got the dog too
I can't believe there was ever a day that I loved you
I can't bear
I got one less cross to bear I feel a lot about a minute
Sandbags on my shoulders falling off
I can't see where your in it
Blue skies went away and it's gone I feel for Jesus
and what He went through
Thank God He didn't have someone like you
It ain't there
When you've got one less cross to bear You accused of bein' a player
You made up all your facts
You call me a son of a bitch and you don't want me
back
It aint fair when you got one less cross to bear Got a brand new car
You got the dog too
I can't believe there was ever a day that I loved you
It ain't there
I got one less cross to bear
