

# Annubis

## Septic Flesh

Come  
Approach  
My trusty jackal's nose  
Don't try to lie  
Cause I can smell your hide Leave your body  
Leave this body now  
Your face can stay  
Upon this golden mask you made The brave in heart  
Can claim eternal life  
My scales of truth  
Will need sufficient proof Their balance depends  
On how your soul weights  
To walk with Gods  
The jaws of chaos you must pass Annubis  
My soul is so light  
And as this feather I can fly Annubis  
Don't let me wither and die I am proud for what I am  
The guardian of the dead  
Appointed by the gods  
To be their final judge Annubis  
Don't let me wither and die
