

Silence (Feat. McKenzie Eddy)

Curren\$y

So I see the setting sun and I get to feeling numb,
Down on that side of town, back where no funs around.
Back where I felt like me and everything you want to be.
Just flows so easily, some I think may call it free,
So cooooooooooooooooooollllldddd,
So So Cooooooooooooooooolllllddd,
I can't believe you coooooooooolllllddd
So ooooooooooooooooooooooUh, yea
As the joint burns, o the point that it stinging my fingers,
Tracks my talk show platform...
Part Phil Donahue part Jerry Springer
Momma come when I bring her
She go where I send her.
Kept it trill from the beginning
From square 1 maintain square business
Don't concern yourself with my minglin' with other bitches
So crafty, mastered the flow Alaska cold,
Silent foot assassin approach.
High when I stroll,
Not even leaving foot prints in the snow
You knowCan't believe you coooooooooollllldddd
Soo oooooooooooooooooo whooooooooaaaa
So I see your face again, back where I've been travelin'
Time I think it seems, to have its grip on me.
Friends they say they call it for you,
No matter what I offer you.
Can't believe in history, living in this misery.
So cooooooooooooooooooollllldddd
So So coooooooooooooooooolllllddd
I can't believe you coooooolllllllllllddd
So cooooooooooooooooooollllldddd
