

Ivy Parker

Boy Kill Boy

Waking to the same sound
This friend of mine
This morning it seems to me
I'm wasting my time So this fight has just begun
This war she says that I'm scared, of scared of I try to keep quiet
I try to keep quiet
I try to keep quiet
I try to keep quiet So this fight has just begun
This war they say that I'm scared of, scared of
Scared of, scared of Maybe we could break down
From time to time
This distance is new to me
This pleasure's not mine So this fight has just begun
This war she says that I'm scared of, scared of I try to keep quiet
I try to keep quiet
I try to keep quiet
I try to keep quiet So this fight has just begun
This war they say that I'm scared of, scared of
Scared of, scared of I try to keep quiet
I try to keep quiet
I try to keep quiet
I try to keep quiet
