

# Door To My Heart

**Buddy Holly**

I opened the door and left it standing  
The door to my heart, your love demanding  
But you were not willing to just step inside  
Now the door to my heart is still open wide I thought you would enter and stay there with me  
When I opened the door to let your love come in  
Now you've shunned my hope, my love and my pride  
But the door to my heart is still open wide
